TECHNICAL SKILLS

- JAVA, JEE ,Spring Boot & Microservices
- DevOps - CI/CD - Linux - AWS - Terraform
- Postgresql, MySQL,MongoDb & REDIS
- Kubernetes- Jenkins - Ngnix - ArgoCD
- Junit/Mockito - Postman,Jmeter
- React Js / Angular / Tailwind
- GIT - GitHub- GitLab

SOFT SKILLS

- Flexible - Proactive
- Agile - Teamwork
- Rigorous - Dynamic

TOOLS

- IntelliJIDEA / PyCharm/ Postman/ Swagger
- Figma / SQL*Plus
- GirKraken- Vs Code

LANGUAGES

- Arabic
- English
- Frensh

PROFIL

Software engineer combining expertise in full-stack development and DevOps, specializing in designing robust solutions and optimizing deployment processes for scalable applications.

EDUCATION & QUALIFICATIONS

ENSA Marrakech 2019- 2024	Software engineer Java - JEE/Spring - Angular - DevOps - Db Administrator
April - June 2023	Certificate Training: CompTIA Security+ Attacks - Threats & Vulnerabilities - Architecture & Design
Collegue ERRAZI 2018-2019	Bachelor's Degree, specializing in Mathematical Sciences

PROFESSIONAL EXPERIENCE

E-AMBITION Rabat 09/2024 - Present	Backend Java & DevOps Engineer Development of robust applications in Java while automating deployment processes. My role includes managing and implementing backend architectures, optimizing performance, setting up quality tests (unit/integration) with a 50% improvement, as well as integrating CI/CD pipelines to ensure fast and reliable deliveries, reducing failures by 40%, using: - Spring Boot, PostgreSQL, Junit5/Mockito, Docker - Jenkins, SonarQube, Kubernetes (K8s), ArgoCD
OFFZONE AGENCY Marrakech / Paris Intern (PFE) 02/2024 - 08/2024	Fullstack Developer Implementation of a comprehensive e-health platform aimed at improving healthcare services through innovative digital solutions using: - Spring Boot / MySQL - ReactJS / Docker This experience allowed me to develop effective and creative solutions, enhance team collaboration, and strengthen my communication skills.
SMART-M Cairo-Egypt 10/2023 - 01/2024	Fullstack Developer Participation in the implementation of the online property management platform in SaaS mode, as well as the creation of architecture on AWS. Team Collaboration: Worked closely with the team to ensure seamless integration between the backend and frontend. Technologies Used: Terraform / Spring Boot / ReactJS / PostgreSQL. Achievements: Performance optimization, secure deployment.
RAADEC SETTAT 07/2023 - 08/2023 Intern (PFA)	Software Engineer Implementation of a desktop application focused on AI to efficiently manage absences using: - Java - Python - OpenCV - MySQL This experience allowed me to gain in-depth familiarity with Java and AI technologies, while integrating the application with the main system.

PROJETS ACADÉMIQUES

E-banking November 2023	Angular / SpringBoot Microservices Implementation of a web platform to manage transactions between clients using: - Angular - Spring Boot Microservices This experience allowed me to strengthen my skills in user interface design and backend system optimization to efficiently manage high-volume transactions.
